

# **CARRICK RESOURCES LIMITED**

## **Health, Safety, Environmental and Security Policy**

Carrick Resources Limited will manage all operations to protect the health and safety of employees, contractors and the public and the environment.

To achieve this policy Carrick Resources Limited will:

- Encourage open and honest communication.
- Protect human, environmental and physical assets by providing appropriate resources including suitably trained and qualified personnel and relevant.
- Ensure the company management systems assess and effectively manage risks arising from business activities.
- Maintain high quality documented systems and processes and seek external certification of key management systems.
- Monitor, evaluate and report HSE performance, striving for continual improvement by setting and reviewing safety and environmental objectives and targets.
- Maintain clean, safe and healthy workplaces.
- Plan and prepare for potential emergencies.
- Investigate and learn from any incidents.
- Comply with or surpass statutory requirements.

It is the responsibility of all personnel involved in Carrick to comply with these policies and to assist the company with implementation.
